JAKE BUGG - NORTHSIDE FESTIVAL (DENMARK)

JAKE BUGG - Live at Rock en Seine

Wednesday, June 15th at 20:00 SGT

Fifty-three is the number of years that separates Jake Bugg from Bob Dylan. To compare the extraordinary precocity of the first one with the timelessness of the latter can be seen as exaggerated, but the Nottingham native is comparable to none of his contemporaries. The young man in black has recorded his second album Shangri-La in Rick Rubin's studio, the mythical producer of the original man in black, Johnny Cash. From the first folk-rock ballads, we distinguish an air of genius that can compare him to some of the greatest before him – enjoy this performance at Rock-En-Seine festival!

MUSE - MOSCOW CONCERT & EUROPEAN TOUR

MUSE - Live at the Astoria

Wednesday, June 22th at 20:00 SGT

One of the world's most successful live music groups, with an over-whelming following from their fans, as their concerts are always packed at stadium sized venues. This performance from 2000 depicts the band still in their early success stages, and though the Astoria has a capacity of 2'000 people, this was quite an intimate setting compared to the huge arenas they play in today. Tracks performed include: 'Uno', 'Sunburn', 'Plug In Baby', 'Falling Down', 'Agitated', 'Muscle Museum', 'Cave', 'Fillip' and 'Showbiz'.

EVENT: ISLE OF WIGHT FESTIVAL WEEKEND

Summer is here ! And its outdoor music festivals all over Europe ! iConcerts decided to pay tribute this weekend to one of the most iconic festivals : Isle Of Wight !

Anecdotally, you may know that originally this festival was a counterculture event held from 1968 to 1970. The 1970 edition was by far the largest and most famous of these early festivals (over 600,000, surpassing the attendance at Woodstock). This unexpectedly high attendance levels led, in 1971, to Parliament passing the "Isle of Wight Act" preventing gatherings of more than 5,000 people on the island without a special licence. The event was revived in 2002. Ready to enter the legend?
